Cornell University Research Expenditures

July 1, 2023 to June 30, 2024

Total Research

\$1,613.6M

Total Research Expenditures by Investigator's Unit

Definitions and Notes

For the purposes of this report, **Organized Research** represents research efforts funded by sponsored programs, federal and New York state appropriations, and internal solicitations, including formal cost sharing. **Departmental Research** represents research-related efforts and activities carried out by Cornell faculty, staff and students that are mainly funded by gifts and departmental and college-level budgets, including start-up and faculty research accounts. **Total Research** includes both Organized Research and Departmental Research.

Research & Innovation administers a total of \$158.1M in research expenditures on behalf of the investigators overseeing the research activities of its facilities, labs, institutes and centers. This report attributes these research expenditures according to the primary college affiliation of the faculty investigators overseeing the expenditures, or, if an investigator is not a faculty member, the primary affiliation of the director of the facility, lab, institute or center that is administering the funds. Expenditures attributed to Research & Innovation are managed by facilities, labs, institutes, and centers whose director's primary affiliation is with Research & Innovation.

* Includes Graduate School, Office of the Provost, Cornell University Library, and others.

** Consistent with NSF HERD reporting guidelines (<https://nsf.gov/statistics/srvyherd>), university support includes: institutional cost sharing, GRA tuition fellowships, university seed research grants, unrecovered facilities & administrative costs, and organized research allocation of NYS-funded employee benefits.

*** Includes foundations, corporations and trade associations, state and local governments, nonprofits and others.

Total Research Expenditures by Funding Source

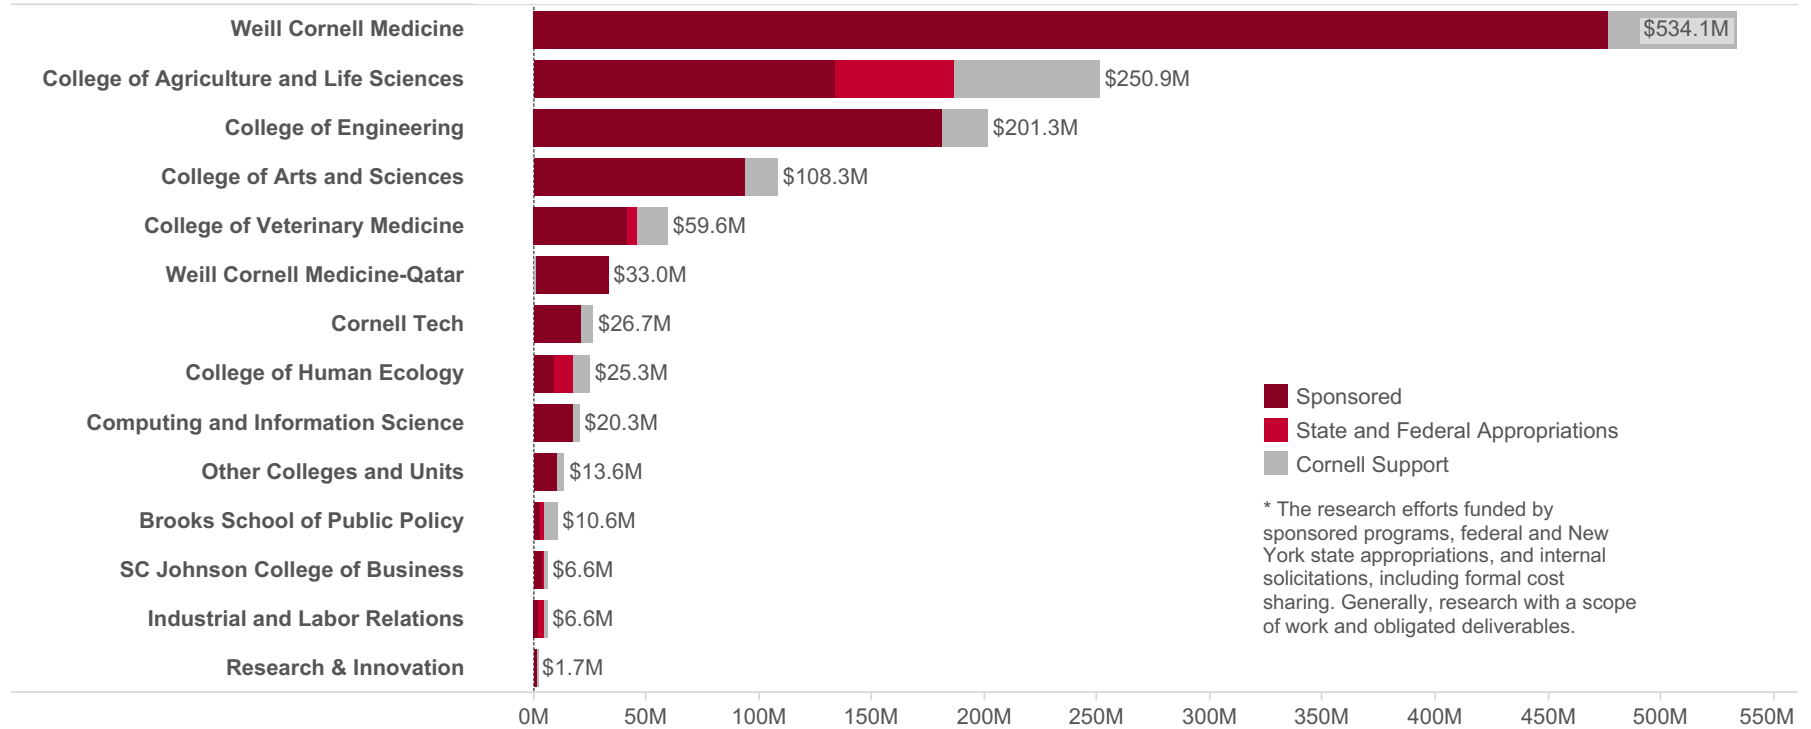

Cornell University Research Expenditures

July 1, 2023 to June 30, 2024

Organized Research*
